

Sherri is no novice to the arts. Her first solo was at the age of 4 and has lead worship all across the U.S and abroad along with the incredible opportunity to sing at Carnegie Hall in New York. She loves musical theatre and has been in, produced and written many plays and musicals herself. Sherri began writing at the age of 15 and loves how words can be used to encourage, lift up and bring healing to many. God uses her sense of humor and down to earth style to reach across denominations, cultures and people groups. She will have you laughing, crying and soul searching all the same time. Sherri has been told that her love of life, authenticity, humor and joy draws people to her and in turn to Christ. She is not afraid to speak truth and she always does it with love! Growing up in church (born and raised in Dallas Texas & now planted in Cypress, Texas) has nurtured her growth and love of Christ to a deep relationship that has taken her into full time ministry. She is an ordained minister, author, musician, artist, graphic designer, photographer, professional event planner and travels extensively encouraging others through the Word in a relatable way. She likes to say "I am just a "wearer of many hats.

"She also will tell you that she was raised on "Sweet Tea & Jesus!" Also, she has a strong prophetic gifting and speaks truth and life when ministering. Sherri truly loves people and her heart is to see people completely healed and walking in freedom released in their giftings (inside & out). True transformational living! Everyone should know they are loved no matter what their background, race, age or demographic and we should all...LIVE OUT LOUD, Full Out! Loving beyond measure is her motto! Just Sayin.....

Here's a snippet of Sherri's resume...
